

***The
Brewer 42***

The Brewer 42 is built in the U.S. This remarkable 42 was introduced for the first time in 1972.

Since that time, using experience and owner suggestions, the basic Ted Brewer design has been refined into a fast, efficient and very comfortable sailing yacht.

Whether chasing distant horizons or anchored quietly in a secluded cove, the Brewer 42 is the finest yacht of her kind on the market today.

This proven world cruiser is also offered with a cutter ketch rig, which not only enhances her upwind performance but adds safety and comfort in heavy weather conditions. Her efficient underwater profile remains unchanged with the rudder safely attached to the full keel.

For her ocean crossing comfort, we offer as standard equipment, a dependable 67 hp Lehman Ford diesel that will power her through the worst conditions, a Hood's sea-furl mast, 210 gallon fuel and 300 gallon water capacity.

Her exterior is powerful and stylish. Her interior is one of the most comfortable, functional and luxurious around. The aft owners cabin features a full sized double bunk, enclosed head with hot and cold pressure water and shower, also full size his and her hanging lockers. The inside passageway contains a large work area with chart stowage beneath, bookcase and a full deluxe electrical panel. The port side of the passageway opens easily to allow complete access to the large, fully lighted engine room. Forward of the engine room is a separate self-draining wet locker for your foul weather gear.

The main salon features a full forward facing navigators station with room for elaborate electronics. An L-shaped dinette allows for functional and comfortable dining at sea or an intimate evening at anchor. The dinette features an easily stowed folding table. This area also converts to a large double bunk.

To starboard is a cozy area with your choice of a settee or a set of chairs near the fireplace.

Located at midships, where it belongs, is a full U-shaped galley featuring a combined 13 cubic foot refrigerator and freezer, three burner propane stove with oven, large double sink with hot and cold pressure water and an abundance of storage and work space.

Forward of the main salon to port is an enclosed head with shower. To starboard there are two full hanging lockers. The forward cabin has a double bunk which is easily converted to two single bunks, numerous lockers and

drawers

The boat is finished throughout with carefully handcrafted teak joiner work and European style rounded doors with optional teak and holly sole.

Style, comfort, speed, power, and luxury are all standard on the Brewer 42.
